SUMMARY

I'm a final year MSc in Computer Science student with a passion for Full Stack Development, Data Science, and AI/ML. I'm skilled in Java, Python, JavaScript, React.js, and other modern technologies. I'm eager to apply what I've learned in a collaborative environment, creating scalable solutions and continuing to grow in software development and data science.

Education

- **Abasaheb Garware College,Pune** — *2025*
  - *Master of Computer Science* — CGPA: pursuing
- **R.B.N.B College Shrirampur** — *2023*
  - *Bachelors of Computer Science - SPPU* — CGPA: *8.64*
- **Navjeevan Junior College, Dahegaon** — *2020*
  - *HSC - Maharashtra State Board of Secondary and Higher Secondary Education, Pune* — Percentage: 76.76

Technical Skills and Interests

- Languages: Java, Python, JavaScript, HTML5, CSS3
- Frameworks/Libraries: React.js
- Developer Tools: Git, GitHub, Postman
- Operating Systems: Windows, Linux
- Databases: SQL, MongoDB
- Technical Proficiencies: Data Structures and Algorithms, Computer Networks, OOPs, Design
- Patterns Soft Skills: Problem Solving, Communication, Decision Making, Teamwork, Adaptability

Personal Projects

- **Blood Bank Management System**

  Technologies: Html, CSS, JavaScript, Java, Bootstrap, MySQL.

  The Blood Bank Management System is a project designed to manage blood donations and requests. It includes web applications built using Java, HTML, CSS, Bootstrap, and MySQL. The system allows users to easily donate, request, and track blood availability, helping to streamline the management of blood banks and improve accessibility.

- **Attendance management system using face recognition**

  Technologies: Python,OpenCV,Tkinter

  This project is about using facial recognition to automatically track attendance in academic settings. It combines Python, Tkinter, and OpenCV to create an easy-to-use system that ensures accurate and secure attendance management. The system makes the process faster and more efficient by recognizing faces, replacing the need for manual attendance

Certifications

- C with Data Structure
- Full Stack Java Development
- Data Science(PW Skills)
